Front-End Developer

Description

We are seeking a talented and passionate **Front-End Developer** to join our growing team. As a front-end developer, you will be responsible for creating visually appealing and highly functional web interfaces that offer an exceptional user experience. You'll work closely with UI/UX designers, back-end developers, and product managers to build modern, responsive, and performance-optimized web applications. If you're enthusiastic about front-end technologies and enjoy solving UI challenges creatively, we'd love to hear from you.

Responsibilities

- Develop and maintain responsive web applications using HTML, CSS, JavaScript, and modern frameworks like React or Angular.
- Collaborate with designers, backend developers, and product managers to implement user-friendly UI/UX.
- Optimize applications for speed and scalability across all devices and browsers.
- Write clean, maintainable, and well-documented code.
- Troubleshoot and debug issues, perform code reviews, and maintain code quality standards.

Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- Minimum 2 years of professional experience in front-end development.
- Strong proficiency in HTML5, CSS3, JavaScript (ES6+), and DOM manipulation.
- Experience with frameworks like React, Angular, or Vue.js.
- Familiarity with version control systems (e.g., Git).

Job Benefits

- Competitive salary based on experience and performance.
- Work-from-home flexibility or hybrid work options.
- Health insurance for employees and dependents.
- Annual performance bonuses and salary revisions.
- Paid vacation, sick leave, and national holidays.
